ZooBurst

http://www.zooburst.com/

ZooBurst is a digital storytelling tool that lets you create your own 3D pop-up books.

Example

Tutorial

http://cpphslibrary.wikispaces.com/file/view/Zooburst+Tutorial.pdf

Practical teaching application

ZooBurst can be used to tell stories, deliver presentations, write reports and express complex ideas. Students can receive feedback on their work in a moderated forum. They can also share or embed their books in any website or blog.

Teachers can set up protected, safe spaces for their students and assign them usernames and passwords without having to provide any sensitive or personal information.

The 3D feature can be really useful for subjects such as math, physics, etc.

Not sure how all this works?

Have a look at http://www.zooburst.com/zb_about.php
